

City of Wilkes-Barre 2023 Calendar Mayor George C. Brown

A MESSAGE FROM MAYOR GEORGE C. BROWN

George C. Brown

It has been my honor to serve as your Mayor over the last three years. This year, I am again dedicated to the safety and wellbeing of all Wilkes-Barre City residents and making our community and our neighborhoods a safe place to raise families and start businesses.

My administration's goals for 2023 include upgrading neighborhood parks, construction of the Skatepark located within Hollenback Park, completing the Public Square Downtown Streetscape Project and finalizing construction on the new Public Square Stage. Additionally, my administration is committed to aggressive pothole patching and completing multiple paving projects throughout the city.

In addition to completing projects that improve infrastructure and parks, developing the community's entrepreneurship, attracting new businesses remains a major priority. The "Spark Wilkes-Barre Grant Program" a partnership with the Greater Wyoming Valley Chamber of Commerce, has already helped launch or relocate 40 businesses to Wilkes-Barre and will continue to add more businesses to our community, in 2023.

I hope 2023 will bless you and your family with health, prosperity, and friendship.

The annual city calendar is a valuable tool which provides Wilkes-Barre's residents with information about: Garbage, Recycling, and Yard Waste Collection Schedules; Holidays and Special Events; City Hall Phone Directory, and more.

The calendar is also available on the city's website at www.wilkes-barre.city

As with any calendar, curbside collection schedules and events are subject to change due to weather and/or available personnel.

Smoke Alarms at Home

SMOKE ALARMS ARE A KEY PART of a home fire escape plan. When there is a fire, smoke spreads fast. Working smoke alarms give you early warning so you can get outside quickly.

SAFETY TIPS

- Install smoke alarms in every bedroom. They should also be outside each sleeping area and on every level of the home. Install alarms in the basement.
- Large homes may need extra smoke alarms.
- It is best to use interconnected smoke alarms. When one smoke alarm sounds, they all sound.
- Test all smoke alarms at least once a month. Press the test button to be sure the alarm is working.
- Current alarms on the market employ different types of technology including multi-sensing, which could include smoke and carbon monoxide combined.
- Today's smoke alarms will be more technologically advanced to respond to a multitude of fire conditions, yet mitigate false alarms.
- A smoke alarm should be on the ceiling or high on a wall. Keep smoke alarms away from the kitchen to reduce false alarms. They should be at least 10 feet (3 meters) from the stove.
- People who are hard-of-hearing or deaf can use special alarms. These alarms have strobe lights and bed shakers.
- Replace all smoke alarms when they are 10 years old.

FACTS

- ❗ A closed door may slow the spread of smoke, heat, and fire.
- ❗ Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level. Smoke alarms should be connected so when one sounds, they all sound. Most homes do not have this level of protection.
- ❗ Roughly 3 out of 5 fire deaths happen in homes with no smoke alarms or no working smoke alarms.
